With a special thank you to Sally Struthers for her dedication to the founding and continuation of this project.
INTRODUCTION TO THE NINTH EDITION

Since 2008, Sinclair Community College has been publishing a bibliography honoring faculty members across the disciplines for their research and scholarship efforts. This year, the ninth edition has grown to over 100 pages of presentations and publications from faculty from across many disciplines and all the divisions. I am delighted to oversee these efforts. These scholars represent Sinclair across the country - and internationally - presenting their research at scholarly conferences, publishing articles and books, and other scholarly and creative products. Their work strengthens the quality of teaching that takes place at Sinclair and enriches the intellectual community.

Beginning in 2015, in addition to publishing a Faculty Scholars Bibliography, the Faculty Scholars Committee began selecting one faculty member to be honored as Distinguished Faculty Scholar of the year. The recipient of this award is selected through an extensive application and review process. In addition to evidence of scholarship, applicants are required to submit letters of recommendation that highlight national recognition for their work. Their extensive accomplishments as writers, scholars, curators, artists, and teachers are an inspiration to all of us.

The reviewing committee for the 2018 edition and the Distinguished Faculty Scholar Award includes Joyce Barnes (Developmental Language Arts), Connie Beal (Nursing), Adrienne Cassel (English), Ribhi Daoud (Economics), and Susan Harris (Math), and Julie McDaniel (Library) – representing all four Sinclair Academic Divisions and the Sinclair Library.

Thank you to all the contributors and editors. We hope that this bibliography will expand with new scholarship each year to honor the accomplishments of all our faculty scholars.

Adrienne Cassel, Ph.D. Professor, English Department
Chair of the Faculty Scholars Committee Sinclair Community College
